SUSTAINABLE FINANCE GENEVA

www.sfgeneva.org

Background

Sustainable Finance Geneva was founded in 2008, as a non-profit organization dedicated to promoting sustainable finance. The **SFG community** includes individual members and institutional partners from the wider Geneva area.

Objectives

Geneva's ecosystem includes a global financial centre, a hub for multilateral diplomacy, the largest concentration of headquarters of Development organisations globally, world-class universities and forward-looking policy-makers. The mission of SFG is to connect, support and promote this exceptional community, linking financial markets with the spirit and values of this "International Geneva". SFG complements its core activities with special projects aimed at maximizing synergies across the sustainable finance ecosystem.
